

Manuel Correia - A smile greater than the world

Receita

Manuel always has a smile, one of those smiles that the world needs.

In the book Grand'Arte he was the shore of our ideas, the mass that tied the creators, José Neiva Correia, Pedro Nunes and Francisco Gomes.

Each picture is an idealized moment of homage to the creators and their ideas.

The most disconcerting, if we can like this him to say, it is the easiness with that he solves the problems, the effectiveness and work rhythm, allied to a rare genius capacity to create unique moments.

It seems that everything is easy, until creating friends.

Thank you Manuel!
